“Return to civilisation was hard, but, in the sanctuary of the Blessed Goddess we had found the lasting peace which is the reward of those who seek to know high mountain places.”

Eric Shipton, on Nanda Devi

Silence is sacred in the Garhwal Himalayas. Spread across the north of Uttarakhand, where India bumps into Tibet and Nepal, this is Hinduism's spiritual heart

In 1905, the then Viceroy of India Lord Curzon, first blazed the **Kuari Pass trail and left it with his name, also known as Curzon's Trail. **Kuari (which means doorway)** Pass is a moderate trek, which makes it easy enough for someone starting out in the Himalayas.**

Be it the Ancient forest trails, mesmerizing meadows of Auli, the beautiful campsites or the magnificent views of some of the most beautiful mountain peaks of the Indian Himalaya, **Kuari Pass/Pangarchulla Peak trek is among the best hikes you could take in this region**
